million L.E.D. (light
emitting diodes). These
earth friendly LED lights
use a lot less electricity

Dear Friend of Green Cleaning Products LLC,

It's Christmas week. What an exciting time of year . a time when we are so grateful for where and how we live. With this appreciation comes a new burst of energy to live a life that protects our health and our planet.

According to Environmental News Network, each year, 50 million Christmas trees are purchased in the US. Of those, about 30 million to to the landfill!

[Let me know](#) what are you doing this season to green our world. Pick up some tips on greening your Christmas, learn how those air freshners we love affect our health, and find out how much energy is saved with LED holiday lights below.

Happy Holidays to you and your family.

I'm Dreaming of an Eco-Christmas

New York City's Rockefeller Center is lighted by 30,000 L.E.D.'s (light-emitting diodes) that officials project will save as much energy a day as an average family uses in a month. Carbon credits will help offset carbon dioxide generated during the tree-cutting process.
